

GANGHUA WANG

Email: wang9019@umn.edu

Website: <https://gwang.umn.edu/>

Address: 492 Ford Hall, 224 Church Street SE
Minneapolis, MN 55455

Research Interests: Privacy-preserving machine learning, deep learning theory and applications, machine learning theory, model fairness

EDUCATION

University of Minnesota, Twin Cities

Ph.D. in Statistics

Aug. 2019 - present

Minneapolis, MN

Advised by [Prof. Jie Ding](#) and co-advised by [Prof. Yuhong Yang](#)

Peking University

B.S. in Statistics, Minor in Economics

Sept. 2015 - July 2019

Beijing, China

EXPERIENCE

Cisco PhD internship [3]

Manager: Dr. Myungjin Lee, Cisco Systems Inc.

June 2022 - Aug. 2022

San Jose, CA

We revealed the relationship between local and global fairness metrics in the distributed learning, establishing the conditions under which locally fair training methods work well.

Cisco Research Fellow: Privacy-preserving machine learning [10, 4, 5]

Jan. 2021 - present

Advisor: Prof. Jie Ding and Prof. Yuhong Yang, University of Minnesota

Collaborated with the Cisco research team

Minneapolis, MN

We developed a foundational framework to understand and guide the design of model stealing attacks and defenses, with applications to machine-learning-as-a-service and model compression.

Research assistant: Deep learning theory [1, 6]

Advisor: Prof. Jie Ding, University of Minnesota

Sept. 2021 - Present

Minneapolis, MN

We proposed a new sparsity index to measure the compressibility of deep neural networks, which significantly improves the state-of-the-art deep pruning methods based on the Lottery Ticket Hypothesis.

Research assistant: Data privacy [2, 8]

Advisor: Prof. Jie Ding, University of Minnesota

June 2020 - Aug. 2020

Minneapolis, MN

We proposed a new framework to protect sensitive information in the data collection procedure, which faithfully retains the truth while still enabling efficient statistical inference.

HONORS AND AWARDS

Awarded by University of Minnesota, Twin Cities

Summer Research Fellowship 2020

School of Statistics First Year Scholarship 2019

Awarded by Peking University

The Academic Excellence Scholarship (3 times) 2016 - 2018

Fang Zheng Scholarship 2017

Wu Si Scholarship 2016, 2018

Freshman Scholarship 2015

TEACHING

Teaching Assistant, University of Minnesota, Twin Cities

STAT 4102 Theory of Statistics II Fall 2020

STAT 3021 Introduction to Probability and Statistics Spring 2020

STAT 3011 Introduction to Statistical Analysis Fall 2019

SERVICES

Reviewer of

The International Conference on Acoustics, Speech, & Signal Processing (ICASSP) 2022

Mentor of K-12 Outreach Program

AEOP High School Apprenticeship K-12 Outreach Program to enhance diversity, equity, and inclusion (sponsored by Army Research Office) 2022

SOFTWARE

Python Packages

1. **SubsetPrivacy**: Implement the subset privacy mechanisms proposed in [8] and statistical inference methods for set-valued observations [2].
2. **ModelPrivacy**: Implement the common and proposed model stealing defense/attack strategies on benchmark datasets [10].
3. **FedGFT**: Implement a bias mitigation federated learning algorithm proposed in [3].

TECHNICAL STRENGTHS

Computer Languages	Python, MATLAB, R, SQL
---------------------------	------------------------
